

# 3 Year Vacuum Aged "Premium 100% Wild Grape Juice"

Fruit juice enjoyed in Japan 🇯🇵 France 🇫🇷 and Dubai 🇦🇪

## Amethyst Dew

MADE in JAPAN

In an unusual practice, we thoroughly raise our Japanese indigenous wild grape, the Crimson Glory vine, in cool climates.

Try it straight to taste the juice itself first. It goes well with bread and meat-based dishes. It shows its true potential in a sauce with red meat, deer, pheasant, and other game. Please enjoy our Crimson Glory grape juice in any situation, whether at a restaurant, at a party, or as a gift.

### ■ Amethyst Dew "The Fresh"

We pressed out young grapes at the end of September, when they retain some of their tartness. The result is a rich fruit juice, characterized by a clear sweetness complimenting its refreshing tartness.

### ■ Amethyst Dew "The Rich"

We pressed out fully ripe wild grapes in October, when the leaves start to fall, giving this juice its characteristic rich and full-bodied flavor.

### ■ Amethyst Mariage

The rare "Yama Sauvignon" type used for this 100% grape juice is a fusion between wild grapes from Japan and the French "Cabernet Sauvignon". Sweetness and tartness combined in deep harmony make for an elegant juice second to none.

Rich in iron and polyphenol, we recommend this product to ladies, athletes, as well as seniors and those who dislike alcohol
